COVID-19 is attacking us because as a society we are sick. We have damaged immune systems due to the Standard American Diet (SAD) and because dermatologists won the battle & have made us afraid of the sun. This has resulted in low vitamin D levels, which drains the immune system.

On top of this, what other society's population is 72% overweight and 40% obese? Amen Clinics has published two studies showing that as your weight goes up the size and function of your brain go down. Excess fat on the body produces inflammatory cytokines, which can be a problem

with COVID-19. With COVID-19, people develop pneumonia, which sparks an immune response, and this inflammation can cause what's being called a "cytokine storm." If you're already inflamed from too much fat on your body, your chances of surviving that storm are a lot lower

That's not all. Half of the people in America are diabetic or prediabetic. And 60% have hypertension or prehypertension. These underlying chronic health conditions make you more likely to suffer severe illness or die from COVID-19

1 15 67

Matt Couch @RealMattCouch May 7

Rather than spending trillions of dollars and scrambling to find a vaccine, we should start putting in the effort to get healthy as a society. That would be a much better use of our resources.

MR. HENRY: Counsel just reminded me that, as it relates to the DNC, we have indicators that data was exfiltrated. We did not have concrete evidence that data was exfiltrated from the DNC, but we have indicators that it was exfiltrated.

MR. SCHIFF: And the indicators that it was exfiltrated, when does it indicate that would have taken place?

MR. HENRY: Again, it's in the report. I believe -- I believe it was April of 2016. I'm confused on the date. I think it was April, but it's in the report.

MR. SCHIFF: It provides in the report on 2016, April 22nd, data staged for exfiltration by the Fancy Bear actor.

Mueller wasted 30+ million of our $$. Nadler now wants to waste more to investigate someone who cannot ever be prosecuted for this. Did any of the Dems actually read the documents related to this case?

The coronavirus pandemic is having a devastating impact on so many people. To try to battle it, we're spending trillions of dollars, making people stay home, and damaging our mental well-being. But what's really irritating is that nobody is talking about the really big issue.

COVID-19 is attacking us because as a society we are sick. We have damaged immune systems due to the Standard American Diet (SAD) and because dermatologists won the battle & have made us afraid of the sun. This has resulted in low vitamin D levels, which drains the immune system.

Why does @TGowdySC think the people want a few bad cops arrested, to embarrass them. Trey seems to think there's no need to go after Obama.

Does this mean that Trey accepts there's 2 sets of laws, and is fine with it. Does he want Obama to get away with it?

Why?

totally agree with your Mom. I'm in my early 60's and have lived through worse than this. It seems people in their 30's are the worst for falling for all of this hysteria. No "data" to back it up, just what I see and hear from former students (I teach in college)

In my 30s, I think media has become the worst manipulators of agenda for the far left mass hysteria. That's the only way far left stays in relevance is by creating a panic fear and hysteria. This pandemic will turn out to be a political hoax than anything else.

Well, she's probably right about that, but it's nothing to fear and nothing to close up shop over.

It's the same as saying, "The flu/pneumonia, heart disease, and cancer are going to kill a bunch of people over the next 2 years."

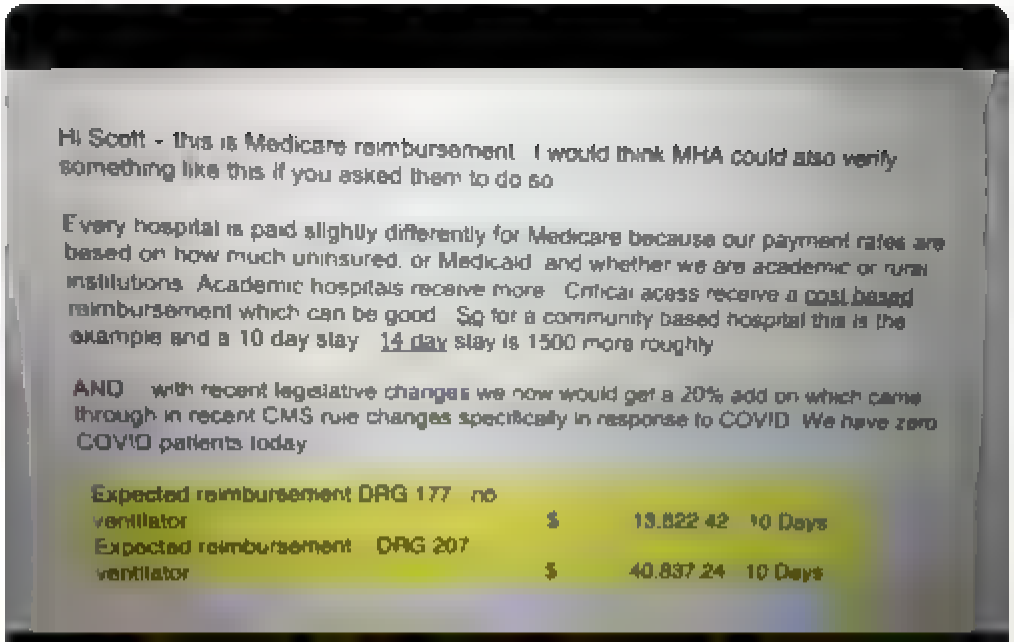
Maybe if they double the incentives and loosen the cdc guidelines even more we can start calling hemorrhoids covid related illness and the hospitals wouldn't have to lay off



Hi Scott - this is Medicare reimbursement. I would think MHA could also verify something like this if you asked them to do so

Every hospital is paid slightly differently for Medicare because our payment rates are based on how much uninsured, or Medicaid, and whether we are academic or rural institutions. Academic hospitals receive more. Critical access receive a cost based reimbursement which can be good. So for a community based hospital this is the example and a 10 day stay. 14 day stay is 1500 more roughly

AND ... with recent legislative changes we now would get a 20% add on which came through in recent CMS rule changes specifically in response to COVID. We have zero COVID patients today

Expected reimbursement DRG 177 - no ventilator	$	13,822.42	10 Days
Expected reimbursement DRG 207 ventilator	$	40,837.24	10 Days

We've been shut down for 9 weeks

And we are expected to believe that a few more weeks will make all the difference

Did you know:

Four people were shot and killed and nineteen were shot and wounded in Chicago this weekend

This happens every weekend in Chicago—one of the most gun-controlled cities in America

Where is the national, mainstream media outrage over this?

I just read the WAPO article reference Flynn - was astounded at how they worked to question Barr's decision. I remember Comey saying ref Clinton no reasonable prosecutor would find against Clinton. Where is the media saying no reasonable prosecutor would have charged Flynn ?

You do you. I'll worry about myself & my family. My wife has immunity issues, so we wear masks when we are out in public. When we get home & take them off they go into a UV chamber to disinfect. You apparently have never had to care for someone with a life-threatening illness.

It took almost 4 yrs to get all the documents, memos, 302s, from the Russian collusion BS, it took almost 3 yrs to prove Flynn was set up, to believe Adam still isn't hiding some documents would be naive

Then where are the arrests of these FBI agents? You aren't arresting anyone, because no one committed a crime. If they did, they'd be in handcuffs. You're just trying to distract from the over 80,000 deaths. You led us to this catastrophe and you are to blame for this mess

Trump says "Don't Ask Me, Ask China" and then this Asian race baiting reporter says "Why are you saying that to me.."

These people are insufferable race baiting morons, who have nothing but the race card.. It's disgusting, & shameful for the press in America to be this corrupt!

But it is law.

During an emergency, local government officals have special powers, appointed through Texas Government Code, Title 4, Chapter 418.

If they made a decision, and made an order, through the county judges, city council, & elected commissioners, it must be followed.

An executive order may not be the same as a statute but has the force of law and can be enforced as such. Having said that, I don't believe she should have gone to jail

We're saying the same thing, I think you're very confused.

I'm saying this virus is nothing more than a different version of the Flu, chances are we'll all get it at some point, open the damn country up

Why I m not thrilled about this, I would rather grocers set a reasonable customer limit so everyone has a bit of something rather than hording.

Smart grocers will see this as an opportunity to create "quarant ne sets" of goods that can be pre-ordered, pre-paid and picked up quickly

That's not all. Half of the people in America are diabetic or prediabetic. And 60% have hypertension or prehypertension. These underlying chronic health conditions make you more likely to suffer severe illness or die from COVID-19

Rather than spending trillions of dollars and scrambling to find a vaccine, we should start putting in the effort to get healthy as a society. That would be a much better use of our resources.

That's just one of the things we've learned at Amen Clinics from 160,000 brain scans

That's not all. Half of the people in America are diabetic or prediabetic. And 60% have hypertension or prehypertension. These underlying chronic health conditions make you more likely to suffer severe illness or die from COVID-19.

Rather than spending trillions of dollars and scrambling to find a vaccine, we should start putting in the effort to get healthy as a society. That would be a much better use of our resources.

That's just one of the things we've learned at Amen Clinics from 160,000 brain scans.

At Chili's we have to wear mask until food or drink arrive. Meanwhile, right next door is Lowe's. Parking lot is full, people have the freedom to walk about, shop, purchase items etc.. mask optional.
This is nothing more than merging society into accepting being controlled.

"Who directed the operation" is exactly the right question because to maintain a full court press (Intel agencies, DOJ/FBI, Congress, media, smear job against @realDonaldTrump @GenFlynn etc. would require a WH office with NSC staff like the one " get things done" @JoeBiden had.

We're all in this together to fight the coronavirus pandemic. We cannot blame any race of people because this virus attacks everyone equally. Also, the enemy is not hidden. We live in the age of science and we can see the virus with electron microscopes and find ways to fight it.

I dont understand why people have a problem with wearing a mask. You can also be for liberty and still agree with protecting yourself and others by wearing a mask.

Easy to think good guys won today, justice has been done for General Flynn. But that's only partially true-

Deep state libs got away with this sham for years, and the process was a big part of the punishment for Flynn.

Until FBI conspirators are in prison, it's not justice

I spent a decade arguing appellate cases & was the Chief of the Appellate Division in my office. The most important thing in argument is to answer the questions the judges ask. Litigants who don't do that might think they're being slick but the judges don't.

I was making the admittedly flip (and hopefully wrong) point that, as with the Senate, Sekulow could show up and read from the phone book for an hour and still prevail at least with some of these justices

MR. SCHIFF: And, to the best of your recollection, when would that have been?

MR. HENRY: Counsel just reminded me that, as it relates to the DNC, we have indicators that data was exfiltrated. We did not have concrete evidence that data was exfiltrated from the DNC, but we have indicators that it was exfiltrated.

MR. SCHIFF: And the indicators that it was exfiltrated, when does it indicate that would have taken place?

MR. HENRY: Again, it's in the report. I believe -- I believe it was April of 2016. I'm confused on the date. I think it was April, but it's in the report.

MR. SCHIFF: It provides in the report on 2016, April 22nd, data staged for exfiltration by the Fancy Bear actor.

Isn't it odd that our media never seeks out other professional / scientists opinions that may differ from Dr Fauci? There are many fully credentialed that have different opinion. If we are to follow "science" then let's hear other scientists

Tucker was the original guy setting his hair on fire over the 2.2 million dead in the IME model & telling Trump to take it seriously. Now he's buying into conspiracy theory that Fauci, not Trump, is calling the shots. Note: both ways he dunked on Trump. He is stealth Never Trump

Greg Tolan @GregTolan · 8 Std.
I disagree. Yes, Tucker was without question on the COVID-19 train at first but like most thoughtful people he followed the data over time and came to the realization that this was not as dangerous as originally thought and that we should adjust accordingly.

Fauci must go now.

Two things can be true at once:

-Ahmaud Arbery did not deserve to die.

-Ahmaud Arbery was not a jogger gunned down for the crime of being black.

It's that simple. But the media cannot resist a race narrative in a election cycle. And people struggle to think for themselves.

Well, friends, when the adults tell you to use a strong password, and to change it regularly, believe me, they are onto something. As many of you know, my account was hacked last week. @TwitterSupport folks were superb trying to untangle this mess during the pandemic. Thank you!!

He is in the driver's seat meaning in control. This is a huge vast undertaking and has been going on for a very long time eradicating evil. If you can please just trust the plan. This is not just about the US this is about our world.

As I have said for a long time, dealing with China is a very expensive thing to do. We just made a great Trade Deal, the ink was barely dry, and the World was hit by the Plague from China. 100 Trade Deals wouldn't make up the difference - and all those innocent lives lost!

When the world was hit from the Plague from Kansas in 1918, it came from the H1N1 influenza virus from pigs. Then when the world was hit from the Plague from North America in 2009, it came from the H1N1 virus again in pigs, but this time from factory farmed ones.

Eugene Gu, MD @eugenegu · 3h
COVID-19 came from China and the coronavirus likely spread from bat to humans. Playing the blame game doesn't help when viruses and pandemics are a natural occurrence. Nobody calls the H1N1 swine flu the American Pig Flu and nobody should call the coronavirus a Plague from China.

The great people of Pennsylvania want their freedom now, and they are fully aware of what that entails. The Democrats are moving slowly, all over the USA, for political purposes. They would wait until November 3rd if it were up to them. Don't play politics. Be safe, move quickly!

It took almost 4 yrs to get all the documents, memos, 302s, from the Russian collusion BS, it took almost 3 yrs to prove Flynn was set up, to believe Adam still isn't hiding some documents would be naive

MICHIGAN HOUSE OF REPRESENTATIVES

REPRESENTATIVE STEVEN JOHNSON

COMMITTEES

May 8, 2020

The Honorable Governor Whitmer
George W. Romney Building
111 S Capitol Ave
Lansing, MI 48933

The Honorable Governor Whitmer

I am calling on you today to instruct the necessary agencies in the State of Michigan to open a formal investigation into the incident that took place at Cherry Health Heart of the City Health Center in Grand Rapids, where a COVID-19 testing line was staged and later aired on CBS This Morning. In light of the Project Veritas video that was published May 6, 2020, the full truth of what happened still has not been established.

Yesterday, in a nationally televised press conference from the Oval Office, the President of the United States weighed in on this matter. This has only amplified the growing negative national attention Michigan has received. While our economy has been shuttered compared to other states, it is now front and center on a national embarrassment that calls into question the trust and reliability we can have in Cherry Health administrators.

Cherry Health is a taxpayer funded entity and as such should receive proper oversight. Instances like this where taxpayer dollars are potentially being utilized for propaganda, not only lacks integrity but is also dishonest and disrespectful to our taxpayers. Taxpayers deserve to know that their dollars are being spent properly and in a principled manner.

As elected officials, the importance of transparency in this COVID-19 crisis has never been greater. It is our responsibility to ensure Michigan residents and Americans alike know the whole truth about what really happened between CBS News and Cherry Health.

I demand you take immediate and decisive action and prevent such behavior from happening again.

I look forward to your prompt response.

Sincerely,

That's not all. Half of the people in America are diabetic or prediabetic. And 60% have hypertension or prehypertension. These underlying chronic health conditions make you more likely to suffer severe illness or die from COVID-19

Rather than spending trillions of dollars and scrambling to find a vaccine, we should start putting in the effort to get healthy as a society. That would be a much better use of our resources.

That's just one of the things we've learned at Amen Clinics from 160,000 brain scans.

Judge Sullivan is a Clinton appointee (1994)...so why would a Clinton appointed judge reject 24 past attempts at amicus briefings, but now at the point of proven government wrongdoing, open the door for an amicus briefing in support of the government corruption against [illegible]?

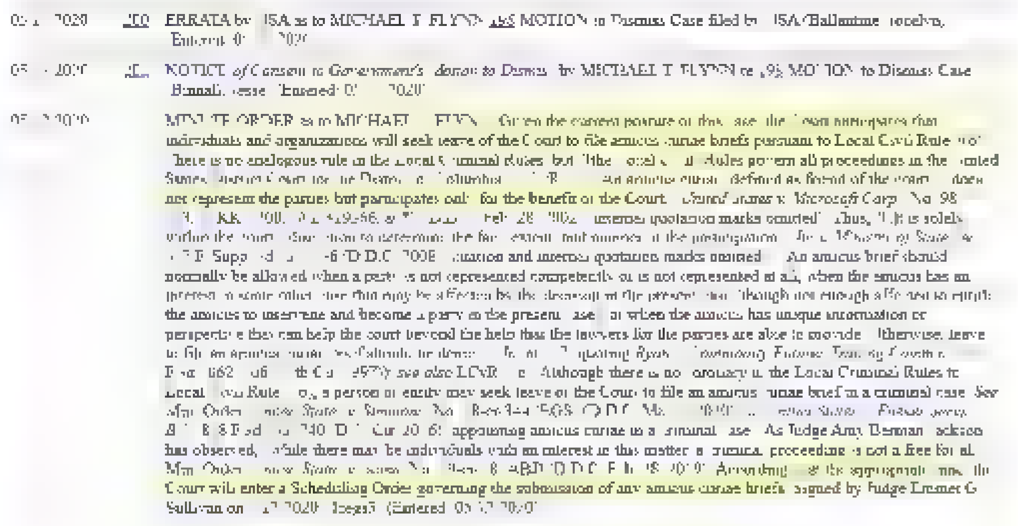
Flynn Update -

Looks like Judge Sullivan will allow for public comment.

Judge Sullivan a minute order anticipating that "individuals and organizations" will seek leave to file briefs "for the benefit of the Court."

A briefing scheduling order will follow.



ERRATA by USA as to MICHAEL T. FLYNN 198 MOTION to Dismiss Case filed by USA (Ballantine, Jocelyn) (Entered: 05/..../2020)

NOTICE *of Consent to Government's Motion to Dismiss* by MICHAEL T. FLYNN re 198 MOTION to Dismiss Case (Entered: 05/..../2020)

MINUTE ORDER as to MICHAEL T. FLYNN: Given the current posture of this case, the Court anticipates that individuals and organizations will seek leave of the Court to file amicus curiae briefs pursuant to Local Civil Rule 7(o). There is no analogous rule in the Local Criminal Rules, but "[t]he Local Civil Rules govern all proceedings in the United States District Court for the District of Columbia." ... An amicus curiae, defined as friend of the court, ... does not represent the parties but participates only for the benefit of the Court. *United States v. Microsoft Corp.*, No. 98 ... (internal quotation marks omitted). ... An amicus brief should normally be allowed when a party is not represented competently or is not represented at all, when the amicus has an interest in some other case that may be affected by the decision in the present case ..., or when the amicus has unique information or perspective that can help the court beyond the help that the lawyers for the parties are able to provide. ... Although there is no analogy in the Local Criminal Rules to Local Civil Rule 7(o), a person or entity may seek leave of the Court to file an amicus curiae brief in a criminal case. ... As Judge Amy Berman Jackson has observed, "while there may be individuals with an interest in this matter, a criminal proceeding is not a free for all." ... Accordingly, at the appropriate time, the Court will enter a Scheduling Order governing the submission of any amicus curiae briefs. Signed by Judge Emmet G. Sullivan on .../2020. Judge Emmet G. Sullivan just signaled he's not interested in the law, due process, equal rights, or justice. He already called Flynn a traitor in open court, and now he's going to invite left-wing lawyers write his final order against Flynn for him.

For nearly three years we have been building a juggernaut campaign (Death Star). It is firing on all cylinders. Data, Digital, TV, Political, Surrogates, Coalitions, etc.

In a few days we start pressing FIRE for the first time.

I didn't give our campaign the name, Death Star, the media did. However, I am happy to use the analogy. The fact is, we haven't used it yet. Laugh all you want, we will take the win

Judge Sullivan is a Clinton appointee (1994)... so why would a Clinton appointed judge reject 24 past attempts at amicus briefings, but now at the point of proven government wrongdoing, open the door for an amicus briefing in support of the government corruption against @GenFlynn?

> **Victoria Toensing** @VicToensing
>
> Does Judge Sullivan read SupCt decisions? Last week SupCt held using amici was "drastic departure" and "abuse of discretion." Why amici for @GenFlynn now when Judge refused Flynn friends amici 24 times. Judge shld be removed from case... then from Bench. #obamagate #maga

My dad was in Vietnam before it was actually declared a war. Got captured and his best friend was killed. Dealt with PTSD all his life. When he got back home, he was even shunned by veterans of other wars. Those men did what their country asked them to and were persecuted for it.

My brain works in a funny way.
If my 18 year old nephew can join the Army. I'm thinking he should be able to buy a gun. If it is decided he can not buy a gun then he has no business in the Army pointing one at the enemy.

so now it goes on to trial GOOD I sure hope they stop this changing the adult age for anything they think they want to. Adult 18 yrs old and should have full adult rights. They can be in wars, charged as adults, responsible for their bills, can buy a car etc

As I have said for a long time, dealing with China is a very expensive thing to do. We just made a great Trade Deal, the ink was barely dry, and the World was hit by the Plague from China. 100 Trade Deals wouldn't make up the difference and all those innocent lives lost.

MASKS! Folks, let a surgeon of 30 years (a.k.a. me) teach you about MASKS. COVID 19 virus particle size averages 125 nanometers (0.125microns); the range is 0.06 microns to .14 microns, one needs an electron microscope to see a COVID 19 virus particle. The hoarded N 95 mask filters down to 0.3 microns. So, N95 masks block few, if any, virions (virus particles). This is a simple fact, so you just cannot argue against it. Other surgical masks, home-made masks and kerchiefs do the following: 1) the allow free passage both ways (in and out) of COVID 19 virions. 2) they become a warm, damp or moist reservoir of COVID 19 particles in asymptomatic "carriers" (estimated to be 85% of all people tested). Question...

We had 60,000,000 H1N1 Cases in 2009 in America.. That caused somewhere between 200K & 400K hospitalizations

The Flu was still happening also.. 140,000 – 810,000 hospitalizations per year on average per CDC..

Why weren't our Hospitals overwhelmed then in 2009?

Japanese bees are awesome, they're the only ones that can battle these Hornets from millions of years of experience with them as they're both from Asia.

As I have said for a long time, dealing with China is a very expensive thing to do. We just made a great Trade Deal, the ink was barely dry, and the World was hit by the Plague from China. 100 Trade Deals wouldn't make up the difference and all those innocent lives lost.

When the so-called "rich guys" speak negatively about the market, you must always remember that some are betting big against it, and make a lot of money if it goes down. Then they go positive, get big publicity, and make it going up. They get you both ways. Barely legal?

Barely legal sounds like something Jeffrey Epstein once whispered into Trump's ear. But anyway, when the so-called "rich guys" like Trump bankrupt a bunch of casinos and now shockingly run our nation, you know we're in for a wild rollercoaster ride. And Trump certainly delivered.

Eugene Gu, MD @eugenegu · 21h

Trump took President Obama's soaring economy that he saved from George W Bush and crashed it so hard on the rocks with more than 33 million Americans losing their jobs. Trump's solution was to first say "it's just the flu, bro" and then tell desperate people to drink bleach.

When the so called "rich guys" speak negatively about the market, you must always remember that some are betting big against it, and make a lot of money if it goes down. Then they go positive, get big publicity, and make it going up. They get you both ways. Barely legal?

It's called Ballot harvesting!
I'm well aware it's been a thing
But when 90% of the voting is not done this way
People who have been dead for years will now vote.

Justice Breyer asks why the Clinton v. Jones principle should not apply here

Sekulow warned that the Vance case could open floodgates to county prosecutors across the country, but Breyer notes the same is true- if not more so- of civil litigation.

Adam Klasfeld @KlasfeldReports May 12

Sotomayor to Sekulow: Counsel, it seems to me that you're asking for a broadness of immunity... that's nowhere in the Constitution.

She says she finds it "odd" that he wants SCOTUS to rule there is an immunity against prosecutor probes, but not civil litigation.

After 4 years of lying, scheming, an illegally investigating @realDonaldTrump with fraudulent warrants, it's time for them to fess up, or get caught in their lies, under oath. This swamp of crooked Democrats couldn't be drained soon enough.

I would love to see the graph that says positivity rates are "declining in many states." Can you share that one, please?

Turns out the FBI code name for Seth Rich was 'Seth Rich'

No wonder it took the FBI years to locate these emails!

Big Congressional win in California for Mike Garcia, taking back a seat from the Democrats. This is the first time in many years that a California Dem seat has flipped back to a Republican. Also, Tom Tiffany beat his Democrat rival BIG in Wisconsin. Two great Congressional WINS!

MASKS! Folks, let a surgeon of 30 years (a.k.a. me) teach you about MASKS. COVID 19 virus particle size averages 125 nanometers (0.125microns); the range is 0.06 microns to .14 microns, one needs an electron microscope to see a COVID 19 virus particle. The hoarded N 95 mask filters down to 0.3 microns. So, N95 masks block few, if any, virions (virus particles). This is a simple fact, so you just cannot argue against it. Other surgical masks, home-made masks and kerchiefs do the following: 1) the allow free passage both ways (in and out) of COVID 19 virions. 2) they become a warm, damp or moist reservoir of COVID 19 particles in asymptomatic "carriers" (estimated to be 85% of all people tested). The defense calls Joe Biden for requesting Flynn be unmasked 10 days before inauguration! 2 months after the election! That proved Biden's request had zero to do with Russian collusion. It had already been debunked. This was his hand in the coup attempt and a really stupid move..

MASKS! Folks, let a surgeon of 30 years (a.k.a. me) teach you about MASKS. COVID 19 virus particle size averages 125 nanometers (0.125microns), the range is 0.06 microns to .14 microns, one needs an electron microscope to see a COVID 19 virus particle. The hoarded N 95 mask filters down to 0.3 microns. So, N95 masks block few, if any, virions (virus particles). This is a simple fact, so you just cannot argue against it. Other surgical masks, home-made masks and kerchiefs do the following: 1) the allow free passage both ways (in and out) of COVID 19 virions. 2) they become a warm, damp or moist reservoir of COVID 19 particles in asymptomatic "carriers" (estimated to be 85% of all people tested). For surgeons, years of training, intimidation, and humiliation teach us to touch NOTHING but our surgical field. Lay people constantly touch, re-arrange, and manipulate their "masks", wonderfully inoculating thousands of virus particles onto their bare or (even worse, gloved) hands. So, these absurd masks ENCOURAGE the fomite transmission ("infected" articles-to-hand-to face transmission of the virus). So, go ahead and allow idiots
